

LEICESTERSHIRE
FIELDWORKERS

THE MEDIEVAL EARTHWORKS OF SOUTH & SOUTH-EAST LEICESTERSHIRE

By Robert F. Hartley

This new publication marks the completion of a 35 year project to publish detailed surveys of all the medieval earthwork sites in Leicestershire and Rutland. It covers Lutterworth, Market Harborough and Billesdon areas. Each site has been studied on the ground and from aerial photographs and then drawn by hand. The volume includes detailed surveys of village and other earthworks and 32 maps recording the evidence for medieval field systems. Nationally-famous deserted villages and some previously little known sites are included. 219 pages, 2 colour plates. ISBN 978-0-9548200-3-9

Order now - £10.00 plus £3.50 post and packing (2nd class Royal Mail postage) **or collect for free from a Fieldworkers meeting**
